Correspondent at Front Says Latest Prisoners of French Are Stunted and Deficient Boys-Steel Helmets Reduce Wounds 70 Per Cent.

By F. B. GRUNDY.

Special Cable Despatch to THE SUN. Paris, Dec. 20 .- As I returned yesterday from a three days visit to the honeycombed with trenches. On a ten French front between Rheims and Soissons I regretted sincerely that it is impossible to send all of France to the possible to send all of France to the front for a similar trip, as well as numerous representatives of all neutral countries directly affected by the war through their territorial proximity to through their territorial proximity to through their territorial proximity to to prevent the sandy soil from caving in the belligerents, as I feel sure all would and floored with wood. return as I did, deeply impressed by

One of the most interesting incidents the confidence felt at the front.

This confidence is not merely one to withstand any effort of the Germans to break through, but it is a confidence to a conf

twenty years of age, but appearing to be between fifteen and seventeen.

They were the product of a Rhenish manufacturing town and belonged to the class of 1915. They had been trained for six months before transportation to the front. Letters from home found on them detailed a scarcity of food.

cently went to the French front, Although such a party was sure to contain sympathizers with Germany and might very well have contained German agents, the members were allowed to see everything and it was no secret that they returned home with a greatly changed impression of the French strength and one not at all similar to that created in Sweden by the German propagands.

Our letter said: "There is no oil and no butter, even if you have the price to pay for it." Another of the letters seized was written by the bearer, but had been stopped by the regimental tensor and consequently was still in the writer's possession. The words "we had terrible losses" doubtless caused the letter to be stopped. Their regiment had participated during September in the German defence to the French offen.

the headquarters garden. They were decidedly superior in physique to the first seventeen we saw fellows who were the understeed dregs of a manufacturing city. It is of course impossible to say to what extent they represent Germany's latest recruits. They were the only Germans we saw, but the fact that sixteen of the seventeen were ex-ceptionally poor specimens of manhood would indicate that the particular draft

road trip across the continent.

Commenting on the roadway of one of the western railroads in a newspaper interview, "the Wizard" said:

"Their tracks are like the New York Central's -and that's about as near perfection, I suppose, as they make railroads."

The New York Central Lines

are the standard of measurement for railroads.

"They wouldn't believe my Tuxedo was Saks-made'

Told to us a few days ago by a well-known New York newspaperman, who had just

bought a new Saks Tuxedo for Christmas

The incredulous ones were two of the best known actors on the American stage, and we don't blame them a bit. Judged by average readyto-wear standards, Saks Evening Clothes are incredible. To men accustomed to pay fabulous prices for their clothes and to submit to the ritual of tape, chalk and conversation for every garment they wear, it seemed inconceivable that style could be acquired at such economy of cost and

Yet the fact remains that Saks Evening Dress Clothes will fit a man without rehearsal and without slipping up on their lines! Same with a Saks Cutaway. And no formal and informal clothes made so admirably combine flexibility of tailoring with permanence of fit.
